Water-Soaked Murderer Arrested. BISMARCK, N. D., March 28.-James Smith, charged with the murder of Anton Hylinger, near Washburn, was captured at a ranch near the scene of his alleged crime and taken to Washburn by the officers. Smith endeavored to cross the Missouri river and thus make his escape, but got lato the water and was compelled to remain

there all night before he could extricate himself. He crawled to a ranch near by, nearly dead from cold and exposure, and asked for medical attention. He revealed his identity to the ranchman and his arrest followed. He is said to be in a serious con-

THE LIVE STOCK MARKETS

REALLY PRIME FAT CATTLE SOLD AT GENERALLY STRONG PRICES.

Medium and Heavy Hogs Slightly Higher-Sheep Active and Stronger-Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS, March 28.-Cattle-Receipts, 1,100; shipments, 300. The marketing of cattle continues comparatively liberal, the receipts thus far this week showing a gain of over 600 compared with the same time last week and 1,300 over the corresponding time a year ago. The receipts to-day were fairly liberal, indicating a little improvement over a week ago and an increase of about 250 over a year ago. The quality generally was equal to the average heretofore this week, and there were a few strictly top kinds represented, especially among the female cattle. The proportion of choice fat stock was not large, and with a steady demand for that class salesmen succeeded in maintaining fully steady prices compared with yesterday. Medium grades of cattle, however, were more difficult to sell and generally considered weaker, and common stock, no doubt, was lower. The demand for fleshy feeders of good quality was steady at former prices, but the ordinary stockers moved very slowly and prices were unsatisfactory compared with those prevailing a short time ago. At a late hour practically all of the choice stock had \$4.50@6.75; cows and helfers, \$3.50@5.85; Western been sold. Quotations:

Combined receipts of hogs for five days show an increase of over 1,000 compared with the same time last week and a decrease of over 4,000 compared with the corresponding time a year ago. The receipts to-day were the largest of the week thus far, and show a little improvement over last Friday, but were not quite as large as a year ago. There were not many strictly top heavy hogs represented, but the quality for an average compared favorably with yesterday. The market opened with rather active competition for the good weight hogs of good quality, and higher prices than yesterday were realized for that class. There were very few shipping orders for the lighter grades, however, and with lim-1.00 | ited competition packers, of course, were inclined to hold prices down, and not a few salesmen claimed they were unable to get any advantage over yesterday. Reluctance in accepting prices offered caused a very quiet market toward the close. Sales ranged from \$6.30 to \$6.90, and a small part of the supply sold below \$6.50. NEW YORK, March 28.—Beeves-Receipts, 2,841. Steers 10c higher, culls and fat cows steady, medium and common cows slow; about Commission Merchants, However Have a Very Good Day-Increased Green Stuff Receipts.

Rain interfered somewhat with trade yesterday, but it being Friday it was a busy day on Commission row. Retail merchants were stocking up for Saturay's trade, and the market men as well. Receipts of green stuff, including vegetables, were quite large and prices have declined to such figures that the consumption is largely increased. In the fruit line prices are still very strong. A few apples are selling, but dried fruits and canned goods are taking the place of apples largely. The higher price of oranges does not increase the price at retail, as merchants have been making a good profit on this line of fruit. Bananas are in good supply and prices are steady. Strawberries are coming in from the South quite freely, but still are selling at luxury prices and will rule high until fruit of nearer growth is on the market. Irish potatoes still rule high. Receipts have not increased to the extent expected with the coming of mild weather, but prices are not as firm as a week ago. Provisions are in good request, especially hams and smoked meats. It being so near the close of the week the dry goods houses were not so busy as on preceding days Leather and hides are the only exceptions to a good trade report. Both are dull, and prices on hides are weak at the present low quotations. The produce market is an active | 124cc one. Receipts of eggs are large and prices are weak; still, with the large receipts, consumption is so increasing that there is but little accumulation of stocks. Choice but- | brl 200 lbs, \$21; fancy clear bean pork, per ter is in good request, with receipts about equal to the demand. Poultry is a fast seller, if choice. Receipts are light, as compared with former years and this enables dealers to hold prices firm; but in the three \$5.25@5.65; culls and bucks, \$3.50@4.85; wethers, lines lower prices next week will not be a | 30 to 40 lbs average, 11%c; 20 to 30 lbs average, surprise. LARGE INCREASE IN NEW OPERA-TIONS IN THE STATE.

Unusual Growth of New Production-Grant County Activity-Monthly Statistical Comparisons.

Special to the Indianapolis Journal. MONTPELIER, Ind., March 28,-Operations are becoming more active in the "Greater Indiana" oil field. For the month of March there were 225 wells completed, with a new daily production of 3,510 barrels, or an average per well per day of 181/2 barrels. There were thirty-six failures to find oil, but most of these proved gas producers. This is an increase in completed wells over the February report of sixteen, and in new production there is the phenomenal increase of 100 barrels. In failures notable increase in the new work under way. There are nine more drilling wells, and thirteen more rigs up at the close of business for the present month than there were at the close of February. There are 198 wells drilling and eighty-three rigs.

The production of oil in the Indiana field is gradually increasing, and the pipe-line reports for March, when published, will show a daily average of close to 20,000 barrels. This is half as much oil as the Ohio oil field produces from more than double the number of wells. It is predicted by well-informed oil men that the Indiana p. m. field would be producing equally as much of the crude product as is northwestern Ohio were it not for the stringent gas

One of the best wells in the Trenton rock field at the present time is No. 14, on the Studebaker farm in Blue Creek township, Adams county, as the latest report from it is that it is doing close to 500 barrels a day. The pool to the northeast of Muncle in Delaware and Randolph counties is attracting considerable attention, and many new locations for wells have been made there. Hartford City is also enjoying renewed activity, and a few dry holes does it attracted an unusual number of applinot frighten the trade to any great ex- cants. tent, but they are pushing the drill. At sium, 50@60c; chiorate potash, 15@20c; borax, 9@ Elwood town lots are in demand since oil 12c; cinchonida, 38@43c; carbolic acid, 32@40c; has been found there in paying quantities, but it is hoped that the pool will not develop into one similar to the one at Peru a few years ago.

The greatest activity is centered at Van Beren and Marion, in Grant county. There are eighty-two wells drilling in that county alone, and it is as active as any of the Ohio oil counties. The following tables show the work for March, as compared with that of February:

Recognition for Osteopaths.

COLUMBUS, O., March 28 .- Osteopathists were given official recognition in Ohio today by the passage of an act in the House. The bill provides for a committee to examine osteopaths and to regulate the practice of that system of curing human ills. They are not to be permitted to practice surgery or administer drugs. The Brannock bill to prevent trap-shooting at live birds was passed to-day by the House without opposition. The bill provides for a heavy penalty for violation of the statute. The Bracken bill to require railroad companies to construct sheds for the protec-

tion of car repairers was also passed.

DENVER, Col., March 28 .- Reports from Orchard, Col., say that many cattle on the plains are in a pitiable condition for want of water. Many of the water holes in Morgan county have been fenced in by owners of small herds, and other cattlemen whose stock is shut off from water are threatening to take retalitory measures. Much ill feeling has been also excited among owners of range cattle by the impounding of animals, said to be in need of water, by officers of the Humane Society. A snow and windstorm prevailed in northeastern Colerado to-day and heavy losses among the weakened range cattle are feared.

Reciprocity Convention in April.

CHICAGO, March 28 .- Gov. W. N. Stanley, of Kansas, president of the Western Reciprocity League, was requested by resolutions unanimously adopted this afternoon by Chicago members of the league to call a convention in Chicago on April 10 under the auspices of the Western Reciprocity League, at which representatives from all the industrial organizations in the country will be requested to send delegates for the purpose of forming a national reciprocity association.
